Handicare **1000** stairlift

FOR STRAIGHT STAIRCASES

Hidden gear rack for a streamlined look and high capacity option

Many people choose the 1000 due to its unobtrusive look with the anodized aluminum rail and hidden gear rack. Available with standard 350 lb capacity, you can also upgrade to a 440 lb capacity, making this a great choice if you need the extra lifting strength. This model offers a variety of additional options including a powered seat swivel, powered folding footrest, powered or manual hinged rail for the bottom landing, and a Perch seat for semi-standing use. The Handicare 1000 from Savaria is also an ideal choice for outdoor applications depending on your local climate.

Sleek and unobtrusive aluminum rail looks great on your stairs. Add powered options, a higher capacity or outdoor package with this robust stairlift.

savaria®

Handicare **1000** | Straight Stairlift

The 1000 outdoor unit is UV- and weather-protected and features slate gray fabric. Suitable for moderate climates.

Choose the Perch seat, that allows you to ride in a semi-standing position, if you have limited knee or hip flexibility.

Other Options
Powered seat swivel, power folding footrest, manual or power hinged rail, body harness.
